RN Reentry Program

Offered by Southwest Georgia Area Health Education Center (SOWEGA-AHEC)

Program Purpose:

This RN Reentry Program has been approved by the Georgia Board of Nursing to provide the individualized combination of 40 hours of independent study relevant to nursing and 160 hours of supervised nursing practice required by the Board for reinstatement of licensure as a registered professional nurse. This program has been designed for those nurses who are presently ineligible for reinstatement of their license because the license has lapsed or has been inactive. Nurses who have active licenses returning to direct patient care who have not worked in the clinical area for some time may also benefit from this program.

Target Audience:

- RNs who have an active GA nursing license but have not practiced nursing for four or more years and want to refresh their knowledge base and nursing skills in preparation to reenter the nursing profession in a clinical setting
- RNs who want to reinstate their GA nursing license by completing a required Board-approved reentry/refresher program
- RNs who have an active nursing license in another state but need to complete a required Board approved reentry/refresher program to apply for a GA nursing license

CE Contact Hours:

SOWEGA-AHEC is an approved provider of continuing nursing education by the Alabama State Nursing Association, an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation. This activity is approved to award 40 contact hours. Approved Provider #5-157. (Activity #29385)

For More Information Contact:

info@sowega-ahc.org

Program Requirements:

The 40 hours of study relevant to nursing must be completed before beginning the 160 hours of supervised nursing practice.

Upon completion of the 160 hours of supervised nursing practice, verification of this will be sent to the Board to support the reinstatement of RN licensure.

Before the clinical time begins, the applicant must provide the following information to the RN Reentry Coordinator:

- A physical examination within the past six months indicating a good state of health.
- A PPD skin test or chest x-ray as appropriate within the past year.
- A tetanus/diphtheria booster within the past year.
- Hepatitis B immunization series is complete.
- Documentation of immunizations for MMR (or Rubella-titer), Polio, DPT, and Varicella Virus.
- Current American Heart Association CPR certification.
- Active malpractice liability insurance (\$1,000,000 each incident, \$3,000,000 aggregate).
- Active accidental health insurance (medical coverage).
