

## 2017 GAFP Assembly Research Poster Competition

SOWEGA-AHEC's Pathway to Med School Class of 2017 competed in the annual research poster competition at the Georgia Academy of Family Physicians (GAFP) Assembly in Atlanta, GA. GAFP invites students from various categories to compete for cash prizes and acknowledgement for research projects which seek to support under-served populations.

One of our poster presentations was awarded 3<sup>rd</sup> place in the overall pre-med category! The winning project, *Factors Associated with Cervical Cancer Screening in Southwest Georgia*, was produced by the student team of Onyi Ohamadike, Lakedra White, and Brittney Thomas. Congratulations on a job well done!
