

Realism in Exercises

At

Dougherty County Health Department

1710 South Slappey Blvd.

Albany, GA. 31701

June 22, 2018 from 9:00 AM – 12:00 PM

Realistic testing allows you to identify gaps in your plans, equipment and training that would otherwise go unnoticed. This course will provide an awareness level regarding safety procedures that should be provided in an Exercise Plan (ExPlan), realistic scenario development, volunteer coordination, and role player recruitment and safety. The course will end with hands-on instruction in basic moulage techniques using moulage kits purchased by the Georgia Department of Public Health (GDPH).
